Q3 2016

President's Column

Here we are, the leaves are changing, the days are getting shorter and there is a crispness in the air. Since our last newsletter, we have had a couple of events and a few field training days, some good food and a lot of fun with friends 2 and 4 legged alike.

As the year wears on, our thoughts will be turning to the holidays and time with friends and family. Some of us will be thinking of time a field with our dogs as they follow generations of breeding and instinct in the pursuit of game and fowl. For those who have never experienced a Labrador nose to beak with a rooster pheasant or the first time they run across a field only to find out how truly large that goose is, watched a dog swim in a confused circle as a duck dives to avoid being caught or give you that "how could you have missed?" look, you have my sympathy. J

Just as watching any athlete achieve a new level skill, so it is to watch a retriever grow in the field. Each retrieve they grow in confidence, each flush they become more proficient. Anyone want to guess where my passion is?

Our Sanctioned B (puppy) Match and Working Certificate test have come and gone. Those who attended each had a good time. I want to take a moment to thank everyone who has joined in on these events. Not for the obvious reasons but, for your warmth and friendly natures. We have had several visitors that have all commented about the friendly, welcoming and willing to share group that you are. THANK YOU!

Though I will probably see many of you before the upcoming holidays, let me say now; Have a safe and happy Thanksgiving and very Merry Christmas.

Wet Noses and Wagging Tails
— *Pete*

"Hi—I am a cute seven-week-old-puppy!"

Rescue Report: Ohio Labrador Retriever Rescue

Lady Gaga, a current Rescue Labrador

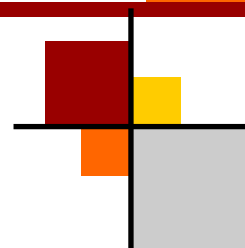

Since January 1st, Ohio Labrador Retriever Rescue has re-homed 89 Labrador Retriever, six other breed dogs, 13 cats, 33, kittens, one white fox and one pot-bellied pig. It has been an extremely successful year for the organization, which is continuing to place animals with the help of volunteers and donations.

Presently, there are eight Labradors seeking homes, and no doubt others have come in during the time it took to publish the newsletter. They are:

- A 3-year old chocolate male undergoing ACL surgery
- A 2-year-old chocolate male
- A 4-year-old chocolate male
- A 9-year-old black female
- A 6-year-old black male
- A 6-year-old yellow female
- Two 9-week old black female pups

All animals are fully vetted, altered, microchip & housebroken prior to adoption. We really encourage everyone to microchip their puppies before placement & register the microchip for families. One of the biggest complaints from shelters is the pet was chipped but never registered with the new owners.
